

CHAT-NATIVE AI ATS + MARKETPLACE

Hire remote IT talent from post to payout.

One platform for clients, talent, and ops — web portal plus Telegram, Discord, and Slack — with AI matching, applicant tracking, and USDC escrow when teams need on-chain certainty.

Clients

Post jobs, score applicants, pipeline, message, fund milestones, managed programmes.

Talent

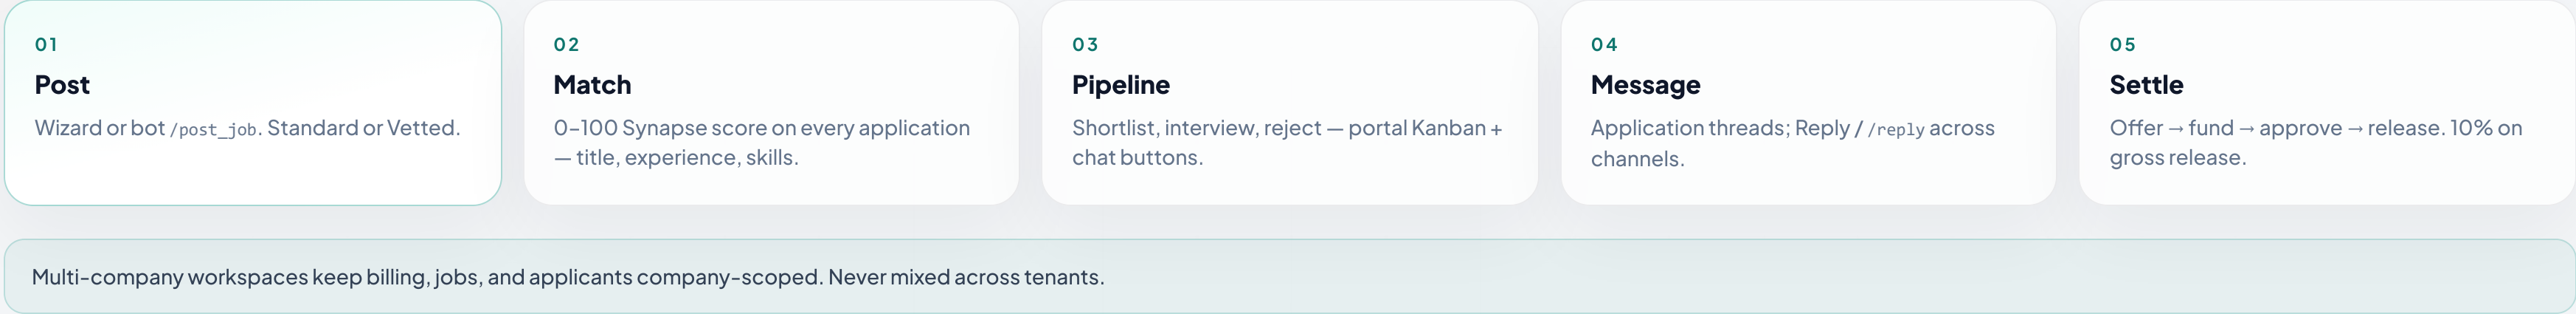

Profile + CV, match scores, apply, interviews, contracts, payouts.

Channels

Same identity across web and bots — drafts and threads resume anywhere.

THE HIRE LOOP

Jobs → Match → Pipeline → Message → Escrow.

WHAT SHIPS TODAY

One SPA. Four hiring surfaces. Full ATS loop.

Client workspace

- Dashboard, jobs wizard, candidates inbox
- Pipeline, talent pool, interviews
- Messages, contracts, escrows, billing
- Team RBAC · multi-company switch
- Managed Core / managed projects

Talent + channels

- Profile, CV parse, job board with fit %
- Applications, messages, escrow payouts
- Gold / Silver vetting · 100-point readiness
- Telegram create-or-link · Discord/Slack link
- Public jobs + SEO niche hubs

DIFFERENTIATORS VS BOARD-ONLY HIRING

ATS depth where teams already work.

Chat-native ATS

Post, score, pipeline, and reply in messengers — same application IDs as the portal.

Explainable AI match

Deterministic 0–100 scores with reasons — not a black box keyword filter.

USDC escrow

Sovereign Escrow on Polygon plus card rails where enabled — milestone releases.

Vetting + Managed

Gold/Silver talent signals and Managed Core for outsourced hiring ops.

Trust posture is honest: production TLS, RLS, Stripe PCI for cards — SOC 2 not claimed yet. See Security PDF.

TRANSPARENT FEES

Three programmes. Listing + release fee.

Standard Post**\$100**

per job · fast multi-channel distribution

Vetted Post**\$200**

per job · verified talent, higher signal

Managed Core**Custom**

enterprise talent operations agreement

Plus 10% platform fee on the gross amount released to talent through in-platform rails. Live promotions always show at checkout — see Pricing PDF.
